

Implementation Calendar

Make this year a success. This calendar provides a space for you to organize the components of your planner program to follow the three phases of implementation.

The calendar is organized into two rows of six months each. Each month is represented by a red header, a small calendar grid, and a larger writing area with three checkboxes on the left. A red arrow labeled 'Prepare' spans from August to October. A red arrow labeled 'Launch' spans from October to December. A red arrow labeled 'Maintain' spans from December to January. A red arrow labeled 'Maintain' spans from February to June. A yellow arrow labeled 'Prepare' spans from May to July.
